***'Let's turn yummy fruits and veggies into a masterpiece – because healthy can be fun too!'***

Dear Parents,

We are excited to inform you about an upcoming **Fun Salad Art Activity** scheduled for **Friday, 27th September**. As part of our fun-filled learning experience, the children will be engaging in a creative activity where they will use fruits and vegetables to create art and have it too!

This fun and educational activity aims to encourage creativity, healthy eating habits, and hands-on learning through the art of making salads.

We kindly request you to send **raw fruits and vegetables that are suitable for salad** (please do not pre-cut them) with your child. Each child must carry –

- Half a cucumber
- Half a carrot
- Half a tomato
- One apple
- One banana
- Few grapes

The children will use the collective items to create **fun and colourful salad art** during the activity. This will not only enhance their learning experience but also develop their motor skills.

We look forward to an exciting day of creativity, fun, and learning!

Regards

Headmistress
