"Tell me and I forget, teach me and I may remember, involve me and I learn."

— Benjamin Franklin

Dear Parent,

At our school, experiential learning forms the core of our daily teaching approach. We consistently strive to design activities that make learning hands-on, engaging, and lasting.

We are delighted to share the two upcoming events that promise to enrich the learning experience of our students by making it joyful, meaningful, and interactive.

✿ **Green Colour Day Celebration – 22-04-2025**

To help children identify and appreciate the colour green in their surroundings, we will be celebrating **Green Colour Day** in class. We kindly request you to dress up our Dipsite in shades of green and send a **green-coloured fruit or vegetable** (e.g., cucumber, capsicum, spinach, grapes, guava, pear, etc.) with your child. This hands-on activity will enhance their observation skills and make learning more interactive and fun.

✿ **Class Stage Activity: "Little Stars, Big Introductions" – 05-05-2025**

We are equally thrilled to conduct a special stage activity where each child will step up to the mic and introduce themselves. This activity will help build public speaking skills, promote self-expression, and boost self-esteem.

We are practicing a few lines with them in school, and request you to reinforce the same at home:

- My name is _____.
- I am ____ years old.
- I like to _____.
- Thank you!

Let's come together to make these experiences memorable and enriching for our little stars. Your cooperation, as always, is deeply appreciated.

Warm regards

Headmistress
