‘Small hands can build big changes – one nest at a time!’

Dear Parent,

As a part of our ongoing commitment to sustainability and environmental conservation, we are excited to host a **Nest Making Workshop led by the renowned "Nest Man of India – Mr. Rakesh Khatri"**. Mr. Khatri has given thousands of birds a place to live. He began his mission to save birds in the city by constructing nests out of sustainable materials. He has successfully executed over 20 projects on Sparrow Conservation, Water Conservation, and E-waste Management, and has been recognized with prestigious accolades: The National Science Award 2020, two mentions in the Limca Book of World Records, the International Green Apple Award, Earth Day Network Star, and membership with IUCN.

This sustainability initiative will provide our Dipsites with a hands-on understanding of the importance of protecting bird habitats and encourage them to contribute to nature in a meaningful way from a young age.

Workshop Details

Day and Date: Tuesday, February 11, 2025

Venue: Performance Den, DPS Surajkund

Theme: Sustainability & Environmental Conservation

Our Dipsites will participate in a hands-on activity, learning how to create eco-friendly nests for birds. To support this meaningful initiative, we kindly request a contribution of **₹100 per child**, to be submitted to the class teacher in a well-labelled envelope latest by **February 04, 2025**. The collected proceeds will be used to create bird nests for the surrounding areas, fostering creativity, empathy for nature, and a sense of environmental responsibility. We encourage all students to participate in this unique experience and make a positive impact!

Warm Regards

Headmistress

DPS Surajkund
