Date: 03.02.2026

Dear Parent,

We are pleased to present the monthly overview of classroom activities and presentations planned for February month. These initiatives are thoughtfully designed to promote meaningful learning and support the overall skill development of our students. All class-related updates for the month are shared through this consolidated circular to help you stay informed and assist your child in preparing for upcoming engagements. Details regarding celebrations and holidays will continue to be communicated separately closer to the scheduled dates.

Name of the Activity	Date
From Trash to Treasure – Prepared Speech	February 20, 2026

From Trash to Treasure – Prepared Speech

“Trash Today, Treasure Tomorrow!”

As part of our theme for the month, “My World”, we are pleased to organize a prepared speaking activity for the students of Class II titled “From Trash to Treasure.” The activity will be conducted on 20.02.26. This activity is designed to develop environmental responsibility, encourage creative thinking, and build effective communication skills and confidence among students.

Activity Details:

- Students are required to speak about waste materials and explain how waste materials can be reused or recycled to make useful/ decorative items.
- Parents are requested to help their child prepare a prepared speech of 7-8 sentences based on the topic.
- Students can use crafts, pictures, or models made from waste or recycled materials to make their presentation more interesting.

Assessment Criteria:

- Content
- Clarity of Speech
- Confidence and Expression
- Overall Presentation

We look forward to witnessing the enthusiasm, creativity, and confidence of our young learners as they present their ideas on “From Trash to Treasure.”

March

As we approach the conclusion of the academic session, this month's activities will provide students with opportunities to reflect on their learning, showcase their talents, and celebrate their achievements. All class-related updates for the month are shared through this consolidated circular to keep you well informed and to help our students prepare for upcoming engagements. Details regarding celebrations and holidays will continue to be communicated separately closer to their scheduled dates.

Name of the Activity	Date
National Science Week	March 2-6, 2026
Holi Celebration	March 3, 2026
Review	March 2 -11, 2026 (Details will be shared)
Graduation Day Celebration	March 18, 2026

National Science Week

“Science is not just a subject; it is a way of thinking.”

As part of National Science Week, we are delighted to organise a series of engaging, age-appropriate activities for Class II students. These activities aim to spark curiosity, encourage problem-solving, and help children understand the importance of science in their everyday lives. The following activities have been planned as part of the celebration:

Date	Name of the activity
02.03.26	Problem Solver Corner
03.03.26	Poster Making Activity
05.03.26	Experiment – Invisible Ink Message
06.03.26	“A Day Without Science”- JAM (Just a minute activity)

Kindly note that no additional preparation is required from home, as all activities will be conducted and guided within school hours. However, parents are encouraged to engage in simple discussions related to the theme and support the learning of their ward through conversation and encouragement at home.

Speaking Activity- Just a Minute(JAM)

Students will be given an impromptu topic based on science and asked to speak on it, helping them sequence their thoughts, develop confidence, and think scientifically. Through these activities, students will learn that science is all around us and plays an important role in making our lives easy, safe, and meaningful. The week-long celebration also aims to nurture scientific temper and creativity among our young learners.

We look forward to your continued support in making National Science Week an enjoyable and enriching learning experience for our Dipsites.

Warm regards,

Headmistress
Delhi Public School, Surajkund
