

# DPS TIMES

## Dear Parents

As we resume school after vacations, we welcome our students wholeheartedly for fun-filled days of learning ahead. It's such an endearing sight to see all young vibrant Dipsites thronging the classrooms in their high spirits.

We will be sharing big storybooks, poems, and songs! We will have fun writing. We will be playing some excellent math games. We will learn new things in WOW. As mentors and class teachers, we will keep apprising you about their activities, achievements, and important dates through ERP.

Each day at school is a crucial addition to the gamut of learning experiences a child forms at school. In addition to academics, their experiences derive richness from the daily lessons learned in compassion, sincerity instilling faith in their abilities, and being optimistic and tenacious. A mentor's work is only accomplished when they see their students rise in these qualities and beyond. We request you partner with us in working with the children to become aware of these virtues. It is through constant effort and reinforcement that we shall be able to see desirable results in our bundles of joy.

# Curriculum At a Glance

## Theme- Water

Water is the primary and essential need of every living being. It's the most precious gift by nature that helps in survival. Unfortunately, this resource which was readily available to us in abundance in yesteryears is becoming scarce. Our young children must understand its importance and ways to be able to fight the scarcity of water. In school, we will educate our little learners on the importance, use, and how water can be saved by small efforts every day through a project on water.

### Linguistic Learning:

#### English

- Recap of s, a, t, i, p, n

### Save Water

I Pledge to  water. I will not waste a single drop of water.

I promise to turn off water while brushing teeth and washing hand.

## English Rhyme

### Rainy Day

I put on my coat and boot on my feet.

I put on my hat and scroll down the street.

The rain falls down from the clouds above,  
Splashing in puddles is what I love!

## हिन्दी कवितायें

### धोबी आया

धोबी आया धोबी आया  
कपडे साफ  
कितने कपडे लाया?  
एक, दो, तीन, चार, पाँच  
छह, सात, आठ, नौ, दस और बस

1 2 3 4 5 6 7 8 9 10

### पानी बचाओ

मेरा नाम है जल  
मुझसे जुड़ा है सबका कल  
मैं लोगों की प्यास बुझाता,  
नदियों में भी बहता जाता  
तालाब में भी मैं लेहराता  
खलियानो में भी मैं जब जाता  
खेत भी हरा भरा हो जाता
